WORK EXPERIENCE

Staff Software Developer, Zebra Robotics Inc

Apr 2024 - Feb 2025

Mississauga, ON

- Architected and developed a scalable React, Node, Express, and MySQL web application to allow thousands of participants from across North America to register for competitions
- Led a team of 4 developers in the development of 3 different full-stack projects while maintaining a collaborative environment and delivering features 20% faster.
- Integrated with a third-party learning management system database to allow managers to draw reports based on student progress
- Create an email automation system that allows managers to send bulk emails from the internal portal system, reducing 30% of the administrative staff's time.

Senior Software Developer Team Lead, Zebra Robotics Inc

Jul 2022 - Apr 2024

Mississauga, ON

- Redesigned the website from a static HTML website to a React, Node, Express, and MySQL stack, reducing registration errors and bugs by 80%
- Integrated the customer-facing site with the internal system to automate registrations, reducing 25% of the administrative staff's tasks
- Creating a custom reporting system that increased the management team's visualization of their location progress by 50%

EDUCATION

University of Guelph - Bachelor of Computing

Sept 2015 - Dec 2019

Guelph, ON
